AUTO3

INDUSTRIAL OZONE GENERATION

RELIABLE. AUTOMATED. PROVEN.

For safe, efficient and continuous treatment.

FIVE REASONS TO CHOOSE OZOREON AUTO3

- 1 Operates with untreated, non-dried air
2. Engineered with Swedish precision and reliability
3. Seamless integration with existing systems
4. Supported by Ozoreon's expert service and care
5. Cost-efficient and sustainable

70% LOWER MAINTENANCE

Ask your local representative for more information.

WHY THE OZOREON AUTO3 MAKES A DIFFERENCE

- **High performance:** Up to 11 g O₃/h for demanding processes
- **Handles pressure:** Operates at up to 7 bar (g) – 2x most standard units
- **Plug & play:** Fully pre-assembled and factory tested
- **Two versions:** High-flow <200 L/min or low-flow <25 L/min
- **Smart control:** PLC with monitoring, alarms & Modbus TCP/IP connectivity
- **Low maintenance:** Built to minimize manual handling and downtime

60% COST SAVINGS

FOR APPLICATIONS THAT MATTER

- Process water, recirculated water and industrial systems
- Food & beverage production / hygiene zones
- Surface, air and equipment disinfection
- Cooling towers and closed-loop water systems
- Small-scale ponds, pools and reservoirs
- Aquaculture
- Decentralized water treatment

CLEAN. CLEVER SCIENCE.
